According to the Motorrad magazine 2022:
In addition to the very good overall ratings, the MICHELIN Pilot Power 2CT stands out with no less than three purchase tips. The speed feedback and handling are really great, making the Power 2CT excellent for anyone who rides a sport bike to go faster on their daily to-do's. Even certain hard-core able bikers can exploit the full potential of the MICHELIN Power 2CT.
The feeling of a hard grip with the road is really great, even on cold days. As the miles go by, you can feel the quality. With the Power 2CT, Michelin is continuing its tradition of offering the best all-weather road tires for sports bikes and others... ready to handle the worst weather with the best equipment... again! It's a Michelin! In fact, no other words are needed for this part of the deal. When you are on the road, its qualities are amazing!
